LETTER OF RECOMMENDATION

I am writing to recommend Ms. Rhea Joel Dcunha who is applying to the master's program at your esteemed university. I had the privilege of being her academic supervisor during her tenure at MGM Dental College and Hospital as the Dean and Head of the Department of Oral and Maxillofacial Surgery. She is a very inquisitive and dedicated student who has held a positive attitude throughout the years.

Rhea has consistently demonstrated exceptional dedication, aptitude and passion for the field of dentistry which is reflected in the numerous accolades she has received, some of which include the prestigious Pierre Fauchard Academy International Senior Student Award, Vice-Chancellor's Certificate of Merit, TATA Trusts Medical and Healthcare scholarship and IAOMR Highest Marks Award for Oral Medicine and Radiology. Her achievements across different subjects and years indicate a well-rounded understanding of various aspects of healthcare.

What sets Rhea apart is her passion for engaging with local communities during oral health screening and dental treatment camps to address public health challenges. She actively seeks out challenging opportunities, embraces academic rigor, and consistently produces work that reflects a deep understanding of the subject matter. She possesses a sharp analytical mind and her ability to grasp complex concepts and apply them in practical settings is truly commendable.

As a highly motivated and disciplined individual, Rhea has demonstrated exemplary leadership skills serving in key roles such as the Member of Organising Committee for Ananta 2022 by Indian Association of Dental Students (IADS) in association with MGMDCH where she organized various lectures and competitions. She has distinguished herself through active participation in several paper and poster competitions at various conferences, she secured 1st position in her paper titled "An Under recognised and Underdiagnosed Pain in the Head and Neck Region- A Diagnostic Dilemma" at Dentocon 3 at Seema Dental College, and 3rd position for National Level E-Poster competition on "Artificial Intelligence in Dentistry" at Government Dental College and Hospital, Mumbai.

I am confident that Rhea will bring the same level of excellence, dedication and enthusiasm to your master's program. Her passion for improving public health, coupled with a strong work ethic, undoubtedly positions her to contribute significantly to the success of her academic pursuits and future endeavours in the field of public health.
