LETTER OF RECOMMENDATION

I am writing this recommendation for Ms. Rhea Joel Dcunha whom I have known as a student at MGM Dental College and Hospital, in the capacity of being the Professor and Head of the Department of Orthodontics and Dentofacial Orthopaedics. It is based on my interaction and her overall performance that I am recommending her to your esteemed University.

Rhea is one of the top students at our college, who has not only secured the 2nd Rank in Maharashtra University of Health Sciences in 2020 but also been awarded the PFA award for outstanding academic achievements in 2023. She stands out not only for her academic prowess but also for her keen interest and contributions to research. She has consistently demonstrated a deep understanding of research methodologies, an inquisitive nature and the ability to synthesize complex information.

Rhea's research contributions in the paper "Evaluation of the Knowledge, Awareness, and Attitude Towards Orthodontic Treatment Amongst Adult Population in Navi Mumbai: A Cross-Sectional Questionnaire-based Survey" demonstrate her ability to conduct comprehensive surveys and analyse public attitudes towards oral health practices. Similarly, her involvement in the research "Long Term Comparative Assessment of Nutrient Intake in Adolescent Urban Indian Population undergoing Orthodontic Treatment" which was published in the Scopus indexed journal European Chemical Bulletin presents a comprehensive investigation into the nutritional aspects of adolescents undergoing orthodontic treatment.

Rhea's accomplishments also include winning the ICD-Cynodont E-Slogan competition on World Tobacco Day and World Oral Health Day in 2023, she also secured 1st position in the MAGNUM Quiz competition in 2022 which demonstrates her exemplary comprehensive skills. Her active participation in Rotaract Club of Caduceus helped her contribute to community development and well-being by organizing service projects and addressing local needs. As a member in the College Student Council, she has showcased her ability to collaborate effectively, sharing an excellent rapport with her peer group and faculty that is essential to thrive in the collaborative and diverse environment of your master's program.

I strongly recommend Rhea for admission to the master's program. Her outstanding strong academic background, and research achievements, coupled with her passion for addressing complex public health challenges, would make her an invaluable addition to your academic community.

Dr. Ravindranath V.K.

M.D.S (Orthodontics),

M.D.S (Oral medicine and radiology),

Professor and Head, Department of Orthodontics,

MGM Dental College & Hospital,
